

S.O.STM

DESCRIPTION

A powdered neutral tasting carbohydrate drink mix
USE UNDER MEDICAL SUPERVISION

INDICATIONS

For use as emergency regimen in the dietary management of inborn errors of metabolism.

S.O.S25 is recommended from 10 years of age*

*can vary depending on individual requirements of the patient

DOSAGE AND ADMINISTRATION

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Each packet of **S.O.S25** prepared to a final volume of 200 ml gives a 25% carbohydrate solution.

PREPARATION GUIDELINES

Preparation to be determined by the clinician or dietitian.

For a recommended preparation as a drink:

1. Empty 1 packet of S.O.S into a measuring cup with lid. Make sure to use full packet.
2. Add the required amount of water to a final volume of 200 ml.
3. Secure lid and shake until powder is dissolved.
4. S.O.S is now ready to use.

Any prepared feed should be refrigerated and used within 24 hours. Re-shake before use.

IMPORTANT NOTICE

Must only be given to patients with proven Inborn Errors of Metabolism under strict medical supervision.

Not for intravenous use. For enteral use only.
Not for use as a sole source of nutrition.

STORAGE

Store in a cool dry place.

Packets are designed for single use and should be used immediately once opened.
