

EAA

SUPPLEMENT

DESCRIPTION

A blend of essential amino acids, carbohydrate, docosahexaenoic acid (DHA), vitamins and minerals.

USE UNDER MEDICAL SUPERVISION

INDICATIONS

For use in the dietary management of Urea Cycle Disorders (UCD) and other disorders of protein metabolism where essential amino acids are required. Suitable from 3 years of age.

DOSAGE AND ADMINISTRATION

To be determined by the clinician or dietitian and is dependent on the age, body weight, and medical condition of the patient.

Each 12.5 g packet of EAA provides 5 g protein equivalent.

PREPARATION GUIDELINES

1. Add 90 ml (approx. 3 fl oz) of cold water or other permitted beverages.
2. Empty the contents of the packet into a cup with lid.
3. Secure lid and shake until all of the powder is dissolved. Drink immediately.

The product should be freshly prepared and consumed immediately. If not possible, any prepared product must be tightly covered and consumed within 4 hours if refrigerated. Re-shake product before use.

IMPORTANT NOTICE

Must only be consumed by people with proven UCD or other disorders of protein metabolism under strict medical supervision.

Not for intravenous use.

For enteral use only.

Not for use as a sole source of nutrition.

STORAGE

Store in a cool dry place.

Packets are designed for single use and should be used immediately once opened.

Any unused powder in a packet must be tightly sealed and used within 24 hours.

PACK SIZE

30 x 12.5 g (0.44 oz) packets

NET WT.

375 g (13.2 oz) (0.825 lb)

Available in Tropical flavor.
